Personal statement:

I'm a designer from Berlin and have just moved to London. For the last 4 years I have worked as the Head of Graphics at online furniture store [Fashion For Home](#). I have several years of experience creating websites and working on web & print projects like logos, icons, illustrations, magazines and cd covers.

I'm a mindful, yet pragmatic designer and love to design responsive user interfaces that are creative, easy to understand and easy to use. See my full portfolio on diondiondion.com.
